

***Southeast Colorado Power Association Partners With GEO's Recharge Colorado for Rebates, Energy Efficiency***

**April 19, 2010**

LA JUNTA - Southeast Colorado Power Association is proud to partner with the Governor's Energy Office in offering Coloradans an unprecedented tool for energy efficiency and cost savings. On April 19, the Governor's Energy Office will launch a new and comprehensive website, [rechargecolorado.com](http://rechargecolorado.com), including home appliance, home energy audit, and renewable energy rebates to offer Coloradans an unprecedented tool to save money and embrace Colorado's New Energy Economy.

The new site, as well as a call center (1.800.462.0184), will offer comprehensive and localized information about rebates and financial incentives, service providers, conservation and money-saving tips, and energy news from across the state, as well as personalized tools and planners—all of which can have tremendous impact on your energy use and cost-savings.

Visit [www.RechargeColorado.com](http://www.RechargeColorado.com) beginning April 19 to learn about the rebate program, and please check the website regularly and often for news, information and updates about the program.

If you have any questions, please contact us at: [renewables@secpa.com](mailto:renewables@secpa.com) or call 1-800-332-8634
